Henry C. Carey.

14th inst., at the age of eighty-six. was the author of "Principles of Politi cal Economy," a work which, first published in 1840, ipaugurated a new era it the realm of Social Science; principles which are destined to prevail, sooner or later, throughout the whole world. In a great measure his works are a protest against the blasphemy of the Malthusian School of economists who arraign the Creator as the author of evil, and assume that poverty and starvation, from overproduction of the human family, is inevialge, and only to be relieved by such limensations of Providence as war, famine and pestilence! Mr. Carey's principles are evolved from the landa mental Christian formula of "peace ou needsarily, might over right. Upon the point, Mr. Carey says:
